ic Gregor's Year J

Something for every Garden—Everything for some Gardens

This new Year Book, our silent salesman, comes to you offering at manufacturers' and growers' prices, the stock of one of the largest plant-producing establishments in the United States—offering something for every garden, everything for some gardens. Years of experience in packing plants has resulted in methods enabling us to guarantee their safe arrival, and in the years of our business career our products have found their way into every state and territory and into many foreign countries. For over 40 years we have pleased the flower lovers of America, and the business today is under the direct control of the founders and their sons. Our guarantee is an asset with us and a safeguard to you, giving absolute security to mail order buyers. We promise you as fine stock as can be grown, a large assortment and good service, and we believe therefore, that this catalogue, which we hope will be found pleasing and helpful, is entitled to the consideration of all buyers.

IMPORTANT INFORMATION FOR CORRESPONDENTS AND CUSTOMERS

Comparative Value of Plants

Don't think any plant too small to do well. The main part of a plant is its root system. The roots of comparatively small plants being careparatively small plants being carefully protected in pots permits shipping and planting anywhere at any time of the year that ground can be worked. Smaller pot plants are always easiest to handle. It is not always best that largest plants obtainable be planted. Often times obtainable be planted. Often times smaller plants do better, because, with a pot grown root system, they establish themselves more easthey establish themselves more easily. What has been said applies particularly to one-year pot grown roses. Pot grown roses are always the best in any size. If you wish the largest and best roses for quick effect, then select two-year size or three-year size which come from four, five and six-inch pots. Nothing better is obtainable anywhere in the country than our three-year size country than our potted rose plants.

Surprise Offer After-Season Sales

with Soil on Roots

If inconvenient for any purchaser to receive an express shipment, then mailable plants may be sent by parcel post with soil on the roots, if customer so orders it, and adds double amount of postage for plants without soil, as explained in table (page 2).

Express Shipments

Surprise Uffer After-Season Sales

Propagating as we do six months in advance of the selling season, we must not be satisfied until we have taxed the limit of our capacity and made allowance for natural increase of business. As a result we generally have surplus of all kinds of plants and rather than carry this stock over, we hold a Clearance Sale beginning June 1, and make up Surprise Collections of miscellaneous plants at 98c per collection, six collections for \$4.88. In these at 98c per collections we give several dollars' worth of plants. The plants in these collections must be strictly our selection. Orders accepted any time during the spring for delivery June 1.

Winter Protection of Roses

Winter Protection of Roses

We have indicated the blooming season and hardiness of roses, as follows: "Monthly Blooming" and "Summer Blooming Hardy with Protection," which refers to the Teas and Hybrid Teas, that should have protection through the winter. "Hardy Summer Blooming" and "Hardy June Blooming" refers to those which are hardy and do not require protection; the Hardy Climbers included. Bush Roses, however, whether Teas, Hybrid Teas, Hybrids or the Cluster flowering types are always helped with that winter protection that keeps the plants and the ground around the base of the plant dry. There is much more in common, or should be, between animal and plant life than is generally acknowledged by those who strive for success in growing roses. Both demand a sufficiency of nourishing food and drink, a pure atmosphere, careful protection and thorough cleanliness.

Guarantee We guarantee all Shrubs, Plants, Bulbs and Seeds that we send out to condition, when forwarded by mail or express. After goods are delivered to purchaser in growing condition our responsibility ends.

Advantages in Planting Pot Grown Plants

There are advantages in planting pot grown plants: namely, they can be planted any time of the year; the ball of earth contains all of the fine fibrous roots and when the plants are shipped, transplanting can be done with no more injury to the plant than if it had simply been removed to a larger sized not. Growth moved to a larger sized pot. Growth continues just the same and the roots do not have to establish themselves as in the case of dormant plants. The pot grown plant, therefore, has many advantages.

If You Wish Orders Held

be sure to say so, then we can book your order any later date desired; otherwise we assume order is want-ed at once, and for shipment with-out further instructions.

Writing About Orders

We exercise the utmost care in filling orders, yet in the busy sea-son errors or losses sometimes ocson errors cur. Should you find it necessary to write about an order, be sure to give us date and copy of the original, amount of remittance, with full information to aid us in promptly taking care of the matter.

Our Nursery Dept.

Being separate from our Green-houses, shipments of Trees, Ever-greens, Fruits, etc., are sometimes sent separately.

Our Prices will compare favorably, we believe, with those of any responsible firm in the U.S., and are so low we must ask cash with order.

FREE OFFER

If you send us an order amounting to \$1.00 from a friend or neighbor who is not now a customer of ours, we will send you any one of the beautiful Roses shown in color on the face of cover of this book, free. If order from new customer amounts to \$2.50, we will send you any three of the Roses. If order amounts to \$5.00 we will send you the six Roses. (Roses 1-yr. size.)

THREE WONDERFUL ROSES

The National

A trio that earned its title. In size, color, form and fragrance, they are unexcell ed. All hardy, vigorous

growers. A wonderful combination.

These three varieties have no rivals among Roses. They are varieties for both amateur and professional, thriving anywhere and blooming under more varying conditions than many other varieties. There are other Roses that are a real delight, and others that one should grow, but none excel in all points the National Trio.

The Beautiful Japanese

Lace

Deep Green (Asparagus Plumosus) — The variety Plume Like Foliage a tall climbing decorative of delicate beauty. Its bright green, foliage is extremely fine and plume-like. The fronds grow from six to eight inches in width and when cut retain their color and shape for weeks. The plant may be grown as a pot plant, a bushy form or climbing. As a house plant it will thrive under practically all conditions. The Asparagus likes a good rich soil and fairly warm temperature. Requires plenty of light but should not be exposed to the direct rays of the sun. The long sprays of delicate leaves are frequently used for cut-flower work where a rich setting of green is desired. As a young plant, the Asparagus is comparatively slow in growth, but as it matures, the vining habit is seen and the growth is more rapid. Nice plants, 24c each; 3 for 68c; 12 for \$2.30. RAPID-GROWING HARDY RAMBLER ROSES

Thousand Beauties

Variegated Pink (Tausendschoen.)

Variegated Pink (Tausendschoen.)

Seauties of Lowers is a whole

bouquet in itself, hence the very fitting name, "Thousand Beauties." The colors run from delicate balsam or tender rose through the intermediate shades of bright rose and carmine, with white, yellow and various other delicate tints showing. Strong grower, few thorns, magnificent foliage, a valuable feature in itself, impervious against mildew and absolutely hardy in the open ground anywhere. One-year, 24c each; 3 for 68c; 12 for \$2.30. Two-year, 55c each; 3 for \$1.57; 12 for \$5.28. Three-year, 75c each; 3 for \$2.14; 12 for \$7.20. Extra large plants, \$1.00 each.

Rosary FLOWERS CERISE.

Cerise A new Rose originating from the many-colored climber Tausendschoen, or Thousand Beauties; cerise-pink in color, decidedly sweet in fragrance, and unusually attractive in its coloring. The plant is resistant to insect attacks, and requires little attention. As a porch Rose it is without equal, and fine for use on arches or as a wall covering. One-year, 26c each; 3 for 74c; 12 for \$2.50. Two-year, 55c each; 3 for \$1.57; 12 for \$5.28. Three-year, 75c each; 3 for \$2.14; 12 for \$7.20. Extra large plants, \$1.00 each.

Alida Lovett 28c

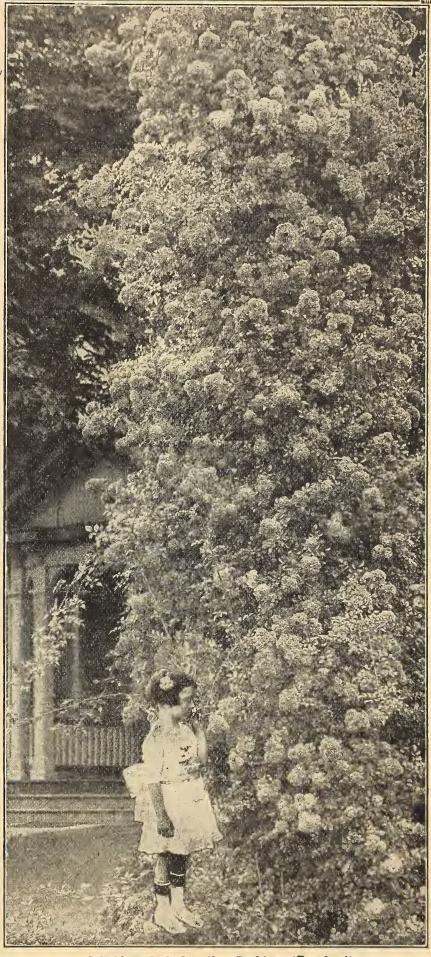

Bright Shell Pink In habit it is quite like the popular Van Fleet, with larger and more beautiful mildew-proof foliage, while the color of the flower is brighter. Buds and flowers are large; are of ideal form; are held on stiff stems a foot and a half to two feet long, and the color is a lively bright shell pink with shadings of rich sulphur at the base of petals—a combination that is both novel and beautiful. Price, I-yr., 28c ea.; 3 for 80c; \$2.69 per doz. 2-yr. plants, 60c ea.; 3 for \$1.70; \$5.66 per doz. Extra large plants, 90c to \$1.50 each.

Purity 28c

(Climbing White American Beauty)
(Hardy June Blooming.) One of the most desirable varieties of climbing roses. A hardy disease resistant variety, similar to Kaiserin Augusta Victoria, but of more vigorous growth and greater freedom of bloom. The flowers are unusually double for a hardy climbing rose, making large individual flowers in place of clusters and blooms are of excellent keeping quality. Recommended as the most beautiful and snow-white hardy climbing Rose. Price, 1-yr., 28c ea.; 3 for 80c; \$2.69 per doz. 2-yr., 65c ea.; 3 for \$1.85; \$6.24 per doz. Heavy 3-yr., \$1.25 each.

Blue Rambler 26c

Light Violet Blue (Veilchenblau) The new rambler "Veilchenblau" (Violet Blue), which is hailed by rose growers as the forerunner of a genuinely cornflower blue rose, is a seedling of Crimson Rambler. The blossoms, massed in large umbels, are semi-double, or medium size. The color, on first unfolding, is either reddish pink or purplish pink, then turns amethyst, and finally steel blue as the flower fades. Strong I-yr., 26c ea.; 3 for 74c. 2-yr., 55c; 3 for \$1.57. Larger. 75c ea.; 3 for \$2.14. Extra large 3-yr., \$1.25 ea.

Butterfly Bush (Summer Lilac), Blooms all summer, 24c.

The Everblooming

Butterfly

The Sensational Deciduous Shrub, Buddleya Varibilis Magnifica

Flowers dleya or Ever-blooming Butterfly Bush was

one of the show plants of the San Francisco and San Diego Expositions. It attracted unusual attention and was greatly admired by thousands. The Buddleya is a deciduous bush, dying down in the winter. In the spring the top should be cut off quite close to the ground. The blooms come from the new wood produced through the summer. It is very rapid growing. It produces long, graceful stems which terminate in tapering panicles of beautiful lilac-colored flowers that are of miniature size and borne by the hundreds on a flower head which is frequently ten inches long. We recommend covering the roots as winter approches. 20c each; 3 for 68c. Two-year plants, 50c each; 3 for \$1.43. Large field-grown plants, 75c each; 3 for \$2.14. Extra large plants, \$1.00.

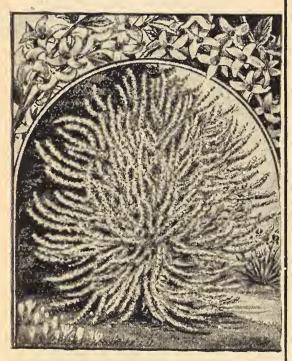

Oak-Leaved Hydrangea

Cream Flowers (Quercifolia.) A new and distinct shrub novelty. We do not Turn Pink know of a plant that is more attractive than this grand summer-flowering hardy shrub. Very large true oak-leaved-shaped foliage, deep green in summer, changing to beautiful colors in fall. Very few plants to be had of this shrub in this country. Stock limited. \$1.00 ea.; 3 for \$2.85.

CRIMSON WEIGELA

Hydrangea Paniculata

(Paniculata)—It attains a height of four to eight feet and is perfectly hardy in all parts of the country. The flowers are white, borne on immense pyramidal panicles nearly a foot in length. It commences flowering in July and continues until November. The plant should be cut back every spring at least one-half of the last season's growth, as the flowers are borne on new wood and are much finer when the plants are treated this way. This is the finest flowering shrub for cemetery planting we know of. (See illustration.) 35c each; 3 for \$1.00; per dozen, \$3.36. Larger plants, 50c each; 3 for \$1.43; per dozen, \$4.80.
